Pattern Selector Pins-Short Pins together
*Recommended Setting - Dbl. Flash-90 fpm
Fast Double-120 fpm
Quad Flash-60 fpm
Fast Flash-70 fpm
Triple Flash - 85 fpm
Overlapping Triple - 70 fpm

Check Output Cable Wire Sequence on both ends of cable before connecting to bulbs. Incorrect order will severely shorten bulb life. Correct Wire Sequence; #1-Red, #2-Black, #3-White

Recommended Setting is Dbl Flash - 90 FPM, provides best bulb life and reduces heat build up
